

Tea Talk at St John's Church

The Broadway, Kidlington, OX5 1DD

Sunday 28th January at 3pm

“The Magic of the Hive”

given by Andy Pedley

Andy has been keeping bees since 1991. He'll be explaining why bees are magical creatures, producing honey, but also vitally important for pollination on which so many of our crops depend. Andy will explain the life cycle of the honey bee, their role in the environment, the challenges that they face, and what we can do to help them and their relatives, solitary bees and bumble bees.

Tea will be served after the talk. Donations in aid of Church Funds

The next Tea Talk is by David Meara on February 11th at 3pm
